June's Memory

Frank Punshon & Justin Lawrence

Reflection 1

```
Am C/E            Am C/E
      Open my head      Go back to the things that we said
Am C/E                      Fadd2     C/E
      With new eyes I see so suddenly, everything.
```

Verse 1

```
Am7             C/E  Am7               C/E
Said I'm sorry again, said I'd love you right to the end
Am7               C/E             Fadd2       C/E
Now there's nobody there, just your space in my head
Am7          C/E        Am7              C/E
Funny how it goes, that we hurt the ones we love the most
Am7        C/E       Fadd2             C/E  G
So much regret, I'll never learn to forget you
```

Chorus 1

```
C            Cmaj7/B
A distant memory resembling you and me
Am7                          F2
Slowly starts to fade, won't let it slip away
C                            Cmaj7/B
You mean the world to me but sometimes I just can't see
Am7                            F                Gadd5
Regret please don't replace my beautiful memory
```

Reflection 2

```
Am  C/E                           Am C/E
       I've never thought about it     but what means the most
Am C/E                          Fadd2                   C/E
       and what will remain once nothing can be changed
```

Verse 2

```
Am7               C/E   Am7                   C/E
Now you're smiling again, tell this story with a happy end
Am7              C/E                   Fadd2         C/E   G
Stay always with me please 'cause this moment should never end
```

Chorus 2

```
C             Cmaj7/B
A perfect memory becoming you and me
Am7                                          F
There's nothing I would change, now I won't let it slip away
C                      Cmaj7/B
I'm living for each day and for the things I still can change
Am7                F
Loving to create a beautiful memory
```

Chorus 3

```
C               Cmaj7/B
With perfect scenery and images of you and me
```

June's Memory - Page 2

```
   Am7                                  F
   With nothing we would change - just beauty that remains
   C                      Cmaj7/B
   Turning every page with nothing we would rearrange
   Am7                        F
   Loving every scene of our beautiful memory
```

Bridge

```
   C Am Fadd2    C/E
             I'm holding onto you } x 3
          Fadd2               C/E
   And it hurts so much but I want to say
```

Chorus 4

```
      C                     Cmaj7/B
   I love you, I love you, I love you I always will
      Am7          F
   I never will forget you
                         C                   Cmaj7/B
   Your beauty fills my heart with so much love
                         Am7   F
   You taught me how to be so loved
                     C     Cmaj7/B
   And how to be complete
                   Am7     F
   How to be complete
```

End

```
       C          Cmaj7/B
   Not wasting love, we may not always be here
   Am7                     F                          Gadd5
   Yesterday is gone and tomorrow still so far away
                                 Am
   Beautiful memories are made today
```
