Walls

Broken People

verse 1

```
    C#                  A#                          G#
    Ba-bel towered famously, You showed us from verse three
                       F#
     that a kingdom of brick would not last
        C#                       A#              G#
    But one, that focused on the King, not popularity
                     F#
    Your kingdom, no building could match!
```

prechorus 1

```
    E        C#            G#   E         C#            G#
    May your people not be found building towers all around
    E        C#                 G#               B             F#
    For Your kingdom, shape our plans, guide our will, use our hands
```

chorus 1

```
    C#    A#         G#
    Break down these walls
    F#              C#  A#        G#
    where they separate from Your call
    F#             C#     A#       G#
    Show us Jesus' way of building much

    F#                C#  A#    G#    F#
    without much building if at all
```

verse 3

```
    C#                  A#                          G#
    May a temple here be found, Your presence all around
                     F#            F#    F  F#   G#
    All together as one church we stand
    C#                  A#                          G#
    May our Jesus be renowned as walls come falling down
                       F#          F#   F  F#   G#
    for Your glory and all to Your plan
```

prechorus 2

```
    E            C#               G#
    Stretch Your kingdom past the found [send us]
    E         C#          G#                  F#
    Spreading worship all around [reach them]
    E        C#           G#              B              F#
    Leave no living stone apart, Fill our homes with the lost
```

bridge

```
    E                  E/F#                       C#
    Who could build a home big enough to hold the Cornerstone?
    E                       E/F#                          C#
    Nothing could contain You, You used nothing as your home
                  A                         B
    with walls replete with flesh and not gold
              A               B                 A              B
    a temple of feet from every fold, a church so big to hold us all
             A                  F#
    a temple filled around Your call
```

last 2 chorii

```
    C#    A#         G#     F#              C#  A#        G#
    Break down these walls, where they separate from Your call
    F#             C#     A#       G#   F#                C#   A#    G#   F#
    Show us Jesus' way of building much without much building, if at all
    C#    A#         G#     F#          C#   A#       G#
    Break down these walls, let us aggregate, at Your call
    F#             C#   A#      G#   F#        C#   A#   G#       F#
    Nothing in the way, join us all, one community, many forms
```
